About the Speakers

Mr. Vivek Gopinath is Infrastructure Technical Specialist with Omnix International, works for driving the adoption of Autodesk BIM Solutions in the Middle East region. He comes with a Civil Engineering background and 15 years of experience in the field of Infrastructure/Structural Solutions.

Mr. Thandavan Boobalan is Application Engineer with Omnix International, handling training in the Middle East region for Autodesk Manufacturing & BIM Softwares. He is an Aeronautical Engineer with good experience in the field of MEP for BIM & Manufacturing solutions. Prior to joining Omnix, he worked as Solution Expert with Autodesk Partners in India.

Mr. Tharakesh Ananthakrishnan is Regional Technical & Training Manager and also Head of Autodesk Education – Middle East. He has more than 19 years of experience with Autodesk Solutions related to both CADD & BIM. He had trained hundreds of corporates & universities around the Middle East. He was the first Autodesk Certified Professional in the Middle East, in 2002.
